

Redmond School District

Achievement Coordinator program

A new program at Redmond School District has taken great strides toward supporting teachers in their efforts to use data to inform instruction.

The Achievement Coordinator program matches six Teachers on Special Assignment (TOSAs) with schools in the district. The coordinators support teachers' use of data in several different ways, including organizing data in a user-friendly fashion, and helping develop strategies to positively affect student learning. The coordinators also serve as a resource and point of contact for schools that need to access information.

"The team in Redmond has done a beautiful job of embedding data work into the culture," says Mickey Garrison, the EESC School Improvement Director. "The way they have done that is very thoughtful."

Achievement Coordinators are: Greg Bridges, Sue Spurgeon, Julie Sowerby, Leigh Anne Jinings, Becky Kirner, and Tom Wrightman.

For more information, visit the web page for the Redmond School District's Office of Educational Improvement, and click on "Achievement Coordinators" at left.

Redmond Achievement Coordinators made a presentation to members of the Instructional Leadership Council at their recent meeting.

Achievement Coordinator Mission Statement:

"To build a collaborative, professional culture through trust and respect; foster professional learning communities using data teams, classroom walk-through, peer observation, study groups, and action research; assist teachers in developing instructional strategies that will increase student achievement; and use formative assessment data and reflection to drive the cycle of teaching and learning."
